Education

2015–2019	**High School**, *X gimnazija "Mihajlo Pupin"*, Belgrade - Serbia.
2019–	**Bachelor**, *University of Primorska*, Faculty of Mathematics, Natural Sciences and Information Technologies, *Bachelor of Mathematics*, Koper - Slovenia.

Experience

2019-	**Science center Petnica**, *Student associate*.
	In PSC I serve as a help to highschool students during their introduction to Computer Science and methods of scientific work and reasearch. Besides that I lector the papers for PSC publishment "Petnicke Sveske" for subjects Mathematics and Computer Science.
2018-2018	**Scientific Institute Mihajlo Pupin**, *Intern*.
	As intern in IMP I was a part of a project with Montenegrian Electrodistibution Network and French company ALSTOM. I made a GUI used to control the interactions between Trafo stations in Montenegro.
2018-	**Freelancing**.
	As a freelancer I teach mathematics and physics to highschool students and do programming work, mostly as a web developer (HTML, CSS, JS) and Python.

Languages

Serbian	Native

Python	Advanced
Javascript, HTML, CSS	Advanced
C++	Decent
Bash	Beginner

About me

Qualities	I think of myself as a social person, capable of working as a part of a team or as an individual. I am a perfectionist and trive in a leading position.
Flaws	I have a tendency to question authority and get into arguments and sometimes prolong them because of my own stuborness.
